A note on accessibility

```jsx
return (
  <svg role="table">
    <g role="tableheader">
      <text role="columnheader"> Active carts </text>
      <text role="columnheader"> Checking out </text>
      <text role="columnheader"> Purchased </text>
    </g>
    <g role='row'>
      <text role="cell"> 32 </text>
      <text role="cell"> 17 </text>
      <text role="cell"> 9 </text>
    </g>
  </svg>
);
}
```

Thanks & We're hiring!
